This is a workshop those who are interested in learning more about stones, gemstones and crystals and their healing energies.... that go beyond the written books. It is valuable for those who do healing work for themselves and for others. Nella will take this time to teach others in using the energy of the many stones minerals and crystals from Mother Earth.

It will entail learning how to feel the energies of the stones and their many uses. Nella will bring the stones and crystals for your feel and to recognize the vibrational energies for its own particular use, and the many aspects of feeling and using those energies. Also, Nella will discuss cleansing and recharging processes.... which is so often forgotten or overlooked.

INFINITY, an Angelic Being who works with Nella, brought information that goes beyond what is written in books. Nella is a vehicle bringing many healing tools and energies through to this planet for their uses, beauty and healing. Nella has worked with stones and crystals for many years in this lifetime ... and in ancient times.

She was commonly known as "The Crystal Lady", and is still often referred to as such. But now her main focus is making and creating the special Native American style flutes that have profound energies of Love and Healing properties. The flutes that she creates have crystal healing energy, mineral healing energies and other spiritual energies not found in other flutes. She also makes drums. There will be stones available simply to look at, to feel and to work with in class. There will also be some stones available for purchase.

Hands-on work, spiritual fullness and shared joy await those who attend this class.

*~ please do not bring any of your stones to this workshop. (we'll do another workshop for that!)*  
*Please ... no perfume or tape recorders... CD's will be available of the workshop..later.*
